**Part-time Adjunct Faculty
Department of Biology & Environmental Sciences
College of Arts & Sciences
Search #22-MARINEBIOADJ**

The Department of Biology and Environmental Science at the University of New Haven invites applications for adjunct professors to teach Vertebrate Zoology labs during the Fall 2022 semester. This course serves undergraduate students in our Marine Biology program, students taking the Marine Biology minor, as well as acting as an option for Biology and Environmental Science majors. Course content will be provided for adaptation.

We are also seeking an instructor for our Seminar in Marine Biology lecture; this course features invited speakers from various marine-related careers. Contact information for potential speakers will be provided.

A minimum of a master's degree in Marine Biology or related field is required (Ph.D. preferred). The ideal candidate will have some teaching experience at the college level and a commitment to student-centered teaching is required. Preference will be given to those with a record of teaching excellence at the university level. These courses require an on-campus presence from the successful applicant.

Consideration of applicants will begin immediately and will continue until the positions are filled. To apply, please send the following electronically to Dr. Jean-Paul Simjouw, Coordinator of the Marine Biology Program, at jsimjouw@newhaven.edu 1) a brief cover letter explaining teaching experience and philosophy, 2) a CV, and 3) the name and contact information for three references. Finalists may be asked to submit examples of their teaching excellence, including syllabi and student evaluations. Be sure to include **"Fall 2022 – adjunct application"** in the email subject line.
