

STUDENTS

EmergenSee™
Personal Security System

Think of it as Personal Security 101.

If you sense trouble, help is just a tap away.

Your campus is usually a secure environment, but it's always good to know that help is close by if you find yourself in a potentially threatening situation. EmergenSeeU gives you that peace of mind wherever you carry your smart phone or tablet.

In addition to live video, audio, and GPS location information, EmergenSeeU features real-time text communication with public safety, instant alerts sent to your contacts, and other features including:

- A "Virtual Escort" that keeps you safe as you walk across campus
- The ability to stay safe while visiting friends on other participating campuses and on University trips abroad
- The option to include profile information, including medical conditions, address, course schedule, and picture
- Mass broadcast alerts to prevent you from walking into harms way
- The capability to send you information on class cancellations and other non-emergency school information
- Usable in remote locations and on the outskirts of campus

Remember, when you're on campus, safety should always be your first priority—aside from grades, of course.

Stay safe. Download EmergenSeeU FREE today.

Available on the
App Store

iOS 4.2 and up

Android
Market

Android 3.1 and up

Here's how it works.

1
You launch
EmergenSeeU.

2
Public safety
receives live
video, audio,
and GPS
location.

3
Public safety
responds
effectively.

EmergenSeeU for students means peace of mind for parents.

If trouble arises, help is just a tap away.

Sending your son or daughter away to school can be a nerve-wracking life event. Rest easier knowing that someone is always by their side with EmergenSeeU.

In addition to live video, audio, and GPS location information, EmergenSeeU features real-time text communication with public safety anywhere your son or daughter carries their smartphone or tablet. They can also add **you** as a contact so you will receive an instant e-mail alert when EmergenSeeU is launched. Other features include:

- A “Virtual Escort” that keeps your student safe when walking across campus
- The ability to stay safe on other participating campuses and on University trips abroad
- The option to include profile information including medical conditions and more, to assist public safety if an incident is started
- Mass broadcast alerts to prevent your student from walking into harms way

Remember, when you're on campus, safety should always be your first priority—aside from grades, of course.
