

Career Services Updates

March 2008

Volume 2, Issue 5

Spring Is On It's Way!

Career Services would like to wish everyone a Happy Saint Patrick's Day and a wonderful Spring Break!

Interested in attending a Career Services Workshop? We offer workshops on resume writing, cover letters/other correspondence, interviewing skills, networking techniques and a workshop on what employers can find out about you before extending a job offer. Please visit the Career Services website for an updated list of remaining workshops for the Spring 2008 semester.

As a reminder to all UNH faculty and staff, we would be happy to present any of our offered workshops to your classes, clubs and athletic teams. Please contact us to schedule a time.

Thank you to all faculty, staff and most of all students who contributed to Career Service's most successful month yet. We would especially like to thank Professors Daniel Maxwell, Lynn Monahan, Bob Massicotte, Joe Polio and Martin O'Connor for encouraging their students to attend our workshops. Last month we were booming with office visits, class presentations, resume and cover letter critiques. Check it out!

WHAT'S NEW

Fire Science Alumni Panel: Real Life Learning

I attended the Fire Science panel discussion on February 21 and below are some of the key discussions points from the panel. Thank you to the UNH Alumni Association and UNH Fire Science Club for sponsoring such a great presentation! - *Kathy Forkin*

- Faculty is important—many of our faculty have experience/work in their fields
- UNH is very involved with internships
- Joining a Fraternity/Sorority would be great
- Study hard
- Residential Life helped with training and in they have used these skills in their present careers
- Important to interact with people that already are in the field
- Activities, Association, Fellowship!
- NETWORK!

Panelists:

Karen Alward, B.S. '02 - Fire Marshal, New Milford, CT

Adam Behnke, B.S. '99 - Firefighter, Portland Fire Department, Portland, ME

Christopher Brennan, B.S.'03 - Firefighter, FDNY Engine Company 58

Chad Campanell, B.S.'99 - Special Agent, ATF

Jordan Collyer, B.S. '02 - Senior Consultant Engineer, FM Global

Michael Di Bartolo, B.S. '99 - Detective, NYPD Regional Training Center

Jeffrey Facinelli, B.S. '99 - Lieutenant, FDNY Engine Company 67

Kevin Fry, B.S. '03 - Firefighter/Fire Protection Systems Specialist, Mashantucket Pequot Tribal Fire Department (Foxwoods)

Monique Joseph, B.S. '01 - Fire Protection Engineer, Marriott International

Robert Mangham, B.S. '02 - Trooper, Connecticut State Police

Congratulations Deb!

Deb Floch, the Graduate Assistant for Career Services will be graduating from the Forensic Science Master's program at the end of this month. Deb has recently accepted a position as a Chemist in the DNA unit with the Massachusetts State Police Forensic Technology Center.

Career Services would like to thank Deb for her hard work and contributions to the office throughout the past year. It has been a pleasure working with her. Deb will be missed and we all wish her GOOD LUCK!

Interested in working in the nonprofit sector?

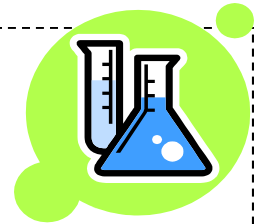

Visit www.idealists.org and view over 9,000 job and internship opportunities across the nation. You can also make an appointment with Sally Anastos, sanastos@newhaven.edu, to explore a variety of service opportunities or visit www.newhaven.edu/servicelearning to learn more about service learning at UNH.

Part time Laboratory Technician ~ 20 hrs/ week

A local company is seeking a part time highly motivated individual with skills and interest in the area of in-vivo research. The successful candidate will be responsible for the writing, implementation and following of protocols for in-vivo pharmacokinetic studies. He/she will participate in all aspects of these studies including Test Article formulation, dosing of Test Article, and sample collection.

Required:

- strong attention to detail and well organized
- willingness to work independently
- interest in learning new disciplines outside current areas of expertise

Skills needed to start:

General Laboratory Techniques, measuring fluids, weighing, pipetting, using a laboratory notebook. Microsoft Word, Microsoft Excel, Microsoft PowerPoint.

Skills you either have or will learn:

Compound formulation and vehicle preparation. In-vivo dosing and sample collection and other In-vivo procedures.

Position Requirements:

A.S or B.S in biology, chemistry, veterinary or related scientific areas. A different degree area but coursework and experience is also acceptable. Travel is required. Reimbursement of \$0.50 per mile for travel will be provided.
