Baglini is bringing high-level math and technical knowledge into his classes to prepare the students for college education and engineering careers.

Affecting Young Lives That Will Impact Our Future

When senior Paul Bradley graduates from UNH, he plans to put his life on the line to keep us safe. The Criminal Justice major concentrates hard on his studies to ensure he will be

prepared for the challenge of his dream job at the Bureau of Alcohol, Tobacco, Firearms and Explosives in the Drug Enforcement Administration. Like other UNH students, Paul, who works in the campus

bookstore, needs to hold down a job to fund his college education. That's why he's a "big fan" of the scholarship funds he receives thanks to the generosity of University alumni and friends through their gifts to UNH's Annual Fund.

"Scholarships have helped me pay for college and allowed me to focus more on my future," he says, adding that receiving scholarships give students "a sense of accomplishment and they work hard to maintain them and to strive for excellence."

Each spring, UNH student callers contact alumni and friends asking that they support student scholarships. In the fall, callers solicit gifts to enhance the campus infrastructure, technology and student and faculty research. To make a gift to UNH's Annual Fund please visit www.newhaven.edu/givenow or use the envelope enclosed in this magazine.
