STUDENT ORIENTATION
ADVISING & REGISTRATION

Charlie the Charger
 Parents & Families,
 Please help us welcome the Class of 2027 and transfer student family members, who we started admitting to the group today. We know you will help them feel welcome in our group.
 As there are each year, there have been several changes to the Road Map for New Students, including changes in processes and dates for new students that may differ from what your student did in past years. While we appreciate the help and guidance of the upperclass family members, we're asking that you assist Charlie by referring new families to their student's Road Map for specific information and directions and/or tagging Charlie with questions.
 For any questions not answered on their Road Map, Charlie will try to find the appropriate answer and get back to them if we're tagged.
 Welcome to Charger Nation, Class of 2027 and transfer families!

CAREER DEVELOPMENT

From help choosing the right major – or switching to a better fit – to internships and co-ops, résumé building, interview training, and job listings in your field, our goal is to connect you with the services and resources you need to map out the career you envision.

Contact Us

At the University of New Haven, we re-imagined how career development should work and created an approach that is integrative instead of merely transactional. That means future career success is built right into your entire academic experience.

It also means that everyone in the University is involved in Career Development, not just a few dedicated staff members. It really does take a village, in our opinion, to sow the seeds of a successful career – from faculty members who design career-focused curricula, to Resident Assistants who are intensely engaged in setting up career workshops and seminars, to the many campus events where career development is always a presence, to mini career fairs that are discipline-focused instead of come-one-come-all events. And that's only a small sample of what you can expect.
