Position Title: Adjunct Faculty Fall 2021
Department: Biology & Environmental Sciences
Search #21-BIOEVSADJ

The University of New Haven, founded on the Yale campus in 1920, is a private, coeducational university that has been recognized by The Princeton Review and U.S. News & World Report for academic excellence. Located between New York City and Boston in the shoreline city of West Haven, the University is a diverse and vibrant community of nearly 7,000 students from across the globe.

Within the University of New Haven’s colleges and schools, students immerse themselves in a transformative, career-focused education across engineering, health sciences and healthcare, business, law enforcement and public service, the liberal arts and sciences, and the fine arts.

More than 100 academic programs are offered, all grounded in a longstanding commitment to collaborative, interdisciplinary, project-based learning. The University of New Haven ranks among the top universities in the Northeast and boasts nationally ranked programs in a number of majors across business, criminal justice, health sciences, engineering, cybersecurity, forensic science, and the liberal arts and sciences.

Here, the experience of learning is both personal and pragmatic, guided by a distinguished faculty who care deeply about individual student success. As leaders in their fields, faculty members provide the inspiration and recognition needed for students to fulfill their potential and succeed at whatever they choose to do.

Under the leadership of President Steven H. Kaplan, who was named the sixth president in 2004, the University has experienced significant growth — both in enrollment and in the expansion of the University’s West Haven campus. Full-time undergraduate enrollment has more than doubled, and first-year applications have nearly quadrupled.

Over the last decade, the University has completed more than $300 million in major capital projects while launching 26 new academic programs. The University has also added campuses in Tuscany, Italy, and Orange, Conn.

SEARCH DESCRIPTION:
The University of New Haven invites applications for adjunct professor positions in Cellular and Molecular Biology, Genomics, Bioinformatics and Biochemistry.

The Department of Biology and Environmental Science at the University of New Haven invites applications for adjunct professors to teach Cell and Molecular Biology, Genomics, Bioinformatics and Biochemistry during the Fall 2021 semester, with potential to extend into future semesters. These courses serve graduate students in our Cellular and Molecular Biology masters program as well as upper-level undergraduate students in the Biology, Genetics & Biotechnology, Forensic Science, Nutrition and Dietetics majors.

Core Duties:

The teaching load will consist of up to three lectures and/or labs in the described fields with the applicant’s specialties and experience being taken into account. In most cases course content will be provided for adaptation.

Qualifications, Knowledge, Skills, Abilities

A minimum of a Ph.D. degree in Biology/Genetics/Biochemistry or related field is required. The ideal candidate will have some teaching experience at the college level and a commitment to student-centered teaching is required. Preference will be given to those with a record of teaching excellence at the university level. Familiarity with online teaching is a plus, but these courses might require an on-campus component from the successful applicant.

University of New Haven Diversity, Equity, Inclusion, and Belonging Vision

The University of New Haven is a diverse institution that celebrates, respects, and values individuals of all social identities. We believe that as members of the university community, our socio-cultural differences ignite intellectual growth and foster a culture of understanding that embraces our ever-changing society.

HOW TO APPLY:

If you have the qualifications we are looking for, and are interested in working for an institution where the experience of learning is both personal and pragmatic and one that is guided by a distinguished faculty who care deeply about individual student success, we want to hear from you! Consideration of applicants will begin immediately and will continue until the positions
are filled. To apply, please send the following electronically to Dr. Eva Sapi, Coordinator of the Cellular and Molecular Biology Graduate Program, at esapi@newhaven.edu:

1) a brief cover letter explaining teaching experience and philosophy, 2) a CV, and 3) the name and contact information for three references. Finalists may be asked to submit examples of their teaching excellence, including syllabi and student evaluations. Be sure to include “Fall 2021 – adjunct application” in the email subject line.

If you have any issues with this submittal, please contact us at HRDept@newhaven.edu.
