Position Title: Adjunct Faculty Spring 2022
Department: Biology & Environmental Sciences
Search #22-BIOEVSA DJ

The University of New Haven, founded on the Yale campus in 1920, is a private, coeducational university that has been recognized by The Princeton Review and U.S. News & World Report for academic excellence. Located between New York City and Boston in the shoreline city of West Haven, the University is a diverse and vibrant community of nearly 7,000 students from across the globe.

Within the University of New Haven’s colleges and schools, students immerse themselves in a transformative, career-focused education across engineering, health sciences and healthcare, business, law enforcement and public service, the liberal arts and sciences, and the fine arts.

More than 100 academic programs are offered, all grounded in a longstanding commitment to collaborative, interdisciplinary, project-based learning. The University of New Haven ranks among the top universities in the Northeast and boasts nationally ranked programs in a number of majors across business, criminal justice, health sciences, engineering, cybersecurity, forensic science, and the liberal arts and sciences.

Here, the experience of learning is both personal and pragmatic, guided by a distinguished faculty who care deeply about individual student success. As leaders in their fields, faculty members provide the inspiration and recognition needed for students to fulfill their potential and succeed at whatever they choose to do.

Under the leadership of President Steven H. Kaplan, who was named the sixth president in 2004, the University has experienced significant growth — both in enrollment and in the expansion of the University’s West Haven campus. Full-time undergraduate enrollment has more than doubled, and first-year applications have nearly quadrupled.

Over the last decade, the University has completed more than $300 million in major capital projects while launching 26 new academic programs. The University has also added campuses in Tuscany, Italy, and Orange, Conn.

SEARCH DESCRIPTION:
The University of New Haven invites applications for adjunct professor positions in Marine Biology.

The Department of Biology and Environmental Science at the University of New Haven invites applications for adjunct professors to teach Vertebrate Zoology labs during the Spring 2022 semester. This course serves undergraduate students in our Marine Biology program, students taking the Marine Biology minor, as well as acting as an option for Biology and Environmental Science majors. Course content will be provided for adaptation.

We are also seeking an instructor for our Seminar in Marine Biology lecture; this course features invited speakers from various marine-related careers. Contact information for potential speakers will be provided.

Qualifications, Knowledge, Skills, Abilities

A minimum of a master’s degree in Marine Biology or related field is required (Ph.D. preferred). The ideal candidate will have some teaching experience at the college level and a commitment to student-centered teaching is required. Preference will be given to those with a record of teaching excellence at the university level. These courses require an on-campus presence from the successful applicant.

University of New Haven Diversity, Equity, Inclusion, and Belonging Vision
The University of New Haven is a diverse institution that celebrates, respects, and values individuals of all social identities. We believe that as members of the university community, our socio-cultural differences ignite intellectual growth and foster a culture of understanding that embraces our ever-changing society.

HOW TO APPLY:
If you have the qualifications we are looking for and are interested in working for an institution where the experience of learning is both personal and pragmatic and one that is guided by a distinguished faculty who care deeply about individual student success, we want to hear from you! Consideration of applicants will begin immediately and will continue until the positions are filled. To apply, please send the following electronically to Dr. Jean-Paul Simjouw, Coordinator of the Marine Biology Program, at jsimjouw@newhaven.edu:
1) a brief cover letter explaining teaching experience and philosophy, 2) a CV, and 3) the name and contact information for three references. Finalists may be asked to submit examples of
their teaching excellence, including syllabi and student evaluations. Be sure to include “Spring-2022 – adjunct application” in the email subject line.

If you have any issues with this submittal, please contact us at HRDept@newhaven.edu.
