Description:

The Department of Mathematics and Physics at the University of New Haven invites applications for a full-time instructor, formally known at the University as a practitioner in residence (PIR), position beginning August 2021.

The Department seeks a highly skilled instructor with expertise in statistics and applied mathematics. The hired instructor would be teaching a selection of courses from Elementary Stats, Probability and Statistics, Statistical Learning and the Calculus sequence. The Department is looking for an enthusiastic instructor who implements active-learning and student-centered pedagogies.

The University of New Haven is a private, top-tier comprehensive institution that provides students with a combination of a solid liberal arts education and real-world, hands-on career and research opportunities. UNH enrolls approximately 6,900 students, including nearly 1,800 graduate students and more than 5,100 undergraduates - the majority of whom reside in University housing. Through its College of Arts and Sciences, Pompea College of Business, Henry C. Lee College of Criminal Justice and Forensic Sciences, Tagliatela College of Engineering, and School of Health Sciences, UNH offers more than 80 undergraduate and graduate degree programs.

Qualifications:

Required qualifications are at least a master’s degree in Mathematics, Statistics, or a related field, a record of teaching excellence, a demonstrated commitment to working with diverse student populations, academic outreach, and promoting techniques of effective and innovative instruction at the undergraduate level.

Diversity and Inclusion:

The University of New Haven is committed to diversity and inclusion in higher education. The University seeks candidates whose teaching, research and/or service has prepared them to contribute diversity and inclusion in our academic community. Applicants are asked to submit a diversity and inclusion statement explaining how their teaching, scholarship and/or service, contributes to building and supporting diverse and inclusive communities.

Application Process:

All information on candidates will be kept confidential. Review of applications will start immediately and continue until the position is filled. Qualified candidates should submit 1) a cover letter that includes a description of relevant qualifications, 2) statement of teaching philosophy and achievements, 3) a curriculum vitae, 4) a diversity and inclusion statement, and 5) contact information for at least three professional references. Candidates are also welcome to submit representative syllabi and or student course evaluations.

All materials should be submitted online at http://apply.interfolio.com/86081
The University of New Haven is an Equal Opportunity, Affirmative Action Employer.
